

PD1011E ELECTRIC GROUT PLANT

- Power 480v, 3p
- Mixer Motor 30HP
- Pump Motor 10HP
- 74 GAL Mixing Tank
- 198 GAL Holding Tank
- Colcrete Colloidal Mixer
- Progressive Cavity Pump
- Max Output 240psi
- Max flow Rate 38 GPM
- Weight 5,500 lbs
- Dimensions 95 x 85 x 94

Colcrete Mixer

Colloidal Grout Mixers are internationally recognized as the most efficient method of mixing cement based grouts and other materials used in the construction industry, resulting in very stable mixes which resist bleed and contamination by water.
